

Championship Ranking

The following events are eligible for ranking purposes: The National Championship, the North Island and South Island Championships, those Regional Championship events selected by the NZLIOMNCA. The previous occurrence of a ranking regatta is replaced when the same event is re-sailed in the current year. If not re-sailed in the current year, a regatta is automatically removed after eighteen months.

A minimum of ten competitors must enter and six races must be completed for the regatta to qualify for ranking purposes. In any regatta, a competitor shall start in at least one race. The Ranking Score for each competitor is calculated as the sum of their best four Regatta Scores, except that only one of North Island Champs and South Island Champs may be included.
